

3^o Transnational Project
Meeting Brilon-
Germany

2 / 7 OCTOBER

3rd Project Meeting in Brilon

3/7 October

The Italian team (three teachers Alessia Cazzola Nicoletta Pattini and Marina Calcagno) arrived in Brilon in the afternoon and were welcomed by the German coordinator Jurgen Mahler.

In the evening we took part in a dinner party organized at the coordinator's place where we had the opportunity to greet and meet the other teams and taste some delicious German food.

In the following 3 days the eight European teams were engaged in some pleasant activities, such as :

- Tour of the school
- Introduction to the students gathered in the schoolyard during the break
- Guided tour of the town
- Meeting with the town Mayor who illustrated Brilon's tourist attractions and its economic and industrial history.
- Guided tour of a near historical town
- Group cooking event during which we prepared and tasted some typical German recipes

A part from these activities, the European team mainly worked hard and discussed thoroughly about:

- The dates for next meeting in Italy . The European teams eventually agreed on the first week of May (2/6 May)
- The topics for the new maths lessons. Each country proposed its own contents which were approved by the other teams
- Framework and contents of the Methodological Moodle Guide

The European teams meet the German students

The students listening to each country 's introduction

Touring the school

The teachers' room

One of the school labs

Another interesting lab

A drawing class

At the town hall with the Mayor
